

New Action Alert!

We request that every WTEA member immediately contact the officials identified below with our message to

- **Oppose Christie’s “Tool Kit” Legislation** – These bills are an attack on the rights of public employees and will have a devastating effect on our public schools. These are just two of the bills of concern. Tell your legislators to oppose all of the “Tool Kit” legislation.
 - ACR-131/SCR-104 – Constitutional Amendment requiring a 2.5% cap on tax levy.
 - S-1984 - Calculates future service of active members at 1/60 of final compensation for TPAF and PERS pensions.
- **Oppose “Opportunity Scholarship Act” (S-1872)** – This bill would direct public funds to private schools at a time when all public schools have seen a drastic reduction in state aid.
- **Restore funding to Public Schools** – NJ Public Schools are consistently among the top in the nation. If that success is to continue, we must continue to invest in our public schools.
